

October 2019

Dear 3rd, 4th and 5th Grade Students,

Do you love computers? Do you want to learn more about how they work and how you can control them? Then the Morse Computer Science club is for you! Here are the details.

**WHO?** 3rd, 4th and 5th grade students who want to learn more about Computer Science

**WHAT?** Computer Science Club is a place where you will learn more about hardware (the parts of a computer and how they work), software (the directions that we use to tell computers what to do), and electronics (small computers that you can code to follow your instructions).

**WHERE?** Morse School Library

**WHEN?** Thursday mornings from 8-8:30am. We will start on **Thursday, October 10th**. *Depending on interest, we will rotate groups 3 times during the year - Fall, Winter, and Spring.*

**WHY?** Why would you just play games on the computer, when you can learn how to make them yourself?!

Sincerely,  
Ms. Lavalle  
jlavalle@cpsd.us

-----  
Dear Parents/Guardians,

In order for this club to work well, I need a commitment from you and your child that they will come to club on time and with consistency. If students miss consistently, it will be hard for them to participate in this work. Feel free to contact me with any questions or concerns via email at [jlavalle@cpsd.us](mailto:jlavalle@cpsd.us).

❖ Ms. Jen Lavalle

My child \_\_\_\_\_ in room \_\_\_\_\_ would like to join the Morse Computer Science Club. My child agrees to come to sessions and be an active participant in the club!
