--independent reading book	ELA	1 to start with (it can be a library book)
--2 black and white composition notebooks	Social Studies - note taking	2
--2 Composition notebooks --1 Folder with pockets	Science	2 1

SEI students will have materials provided by their teachers.

For students, the first week of school will include time dedicated to learn how the school building is set up, as well as the routines of Vassal Lane Upper School. We will begin the first week by spending time within our Advisory homeroom groups, getting acquainted and settled into Advisory and school routines. You'll practice moving through your schedule and will meet all your teachers. We will take time to think about **transitions** and **organization** and how to manage multiple classes, materials, and lockers. We are also planning some fun and community-building events for the beginning of school. We are looking forward to a great learning-filled year!
