

Options for placing out of Algebra 1

The CAMbridge Program

Successful completion of the necessary modules in the **8th Grade → Algebra 1 CAMbridge (Comprehensive Algebra Modules) Program** offered this summer through CPS.

Summer Program

Proof of successful completion of an Algebra 1 summer program covering the required content.

Recommendation

- *Recommendation:* Student's 8th grade guidance counselor recommendation
- *Summer Program Recommendation:* Instructor of a summer program recommendation, covering the Algebra 1 course content, taken by the student.
- *Family Recommendation:* Student's family recommendation requesting that student place out of the Algebra 1 course, attesting to the student's preparation and readiness for the next level in the standard CRLS math course sequence.
- *Self Recommendation:* Student written recommendation, asking that they be considered for placement out of the CRLS Algebra 1 course, attesting to self preparation and readiness for the next level in the standard CRLS math course sequence.

Supporting Document(s)/Evidence:

- Final grade or progress report received from CPS' CAMbridge Program or another summer program
- OR
- Progress/growth report from online course comparing "pre" and "post" assessment

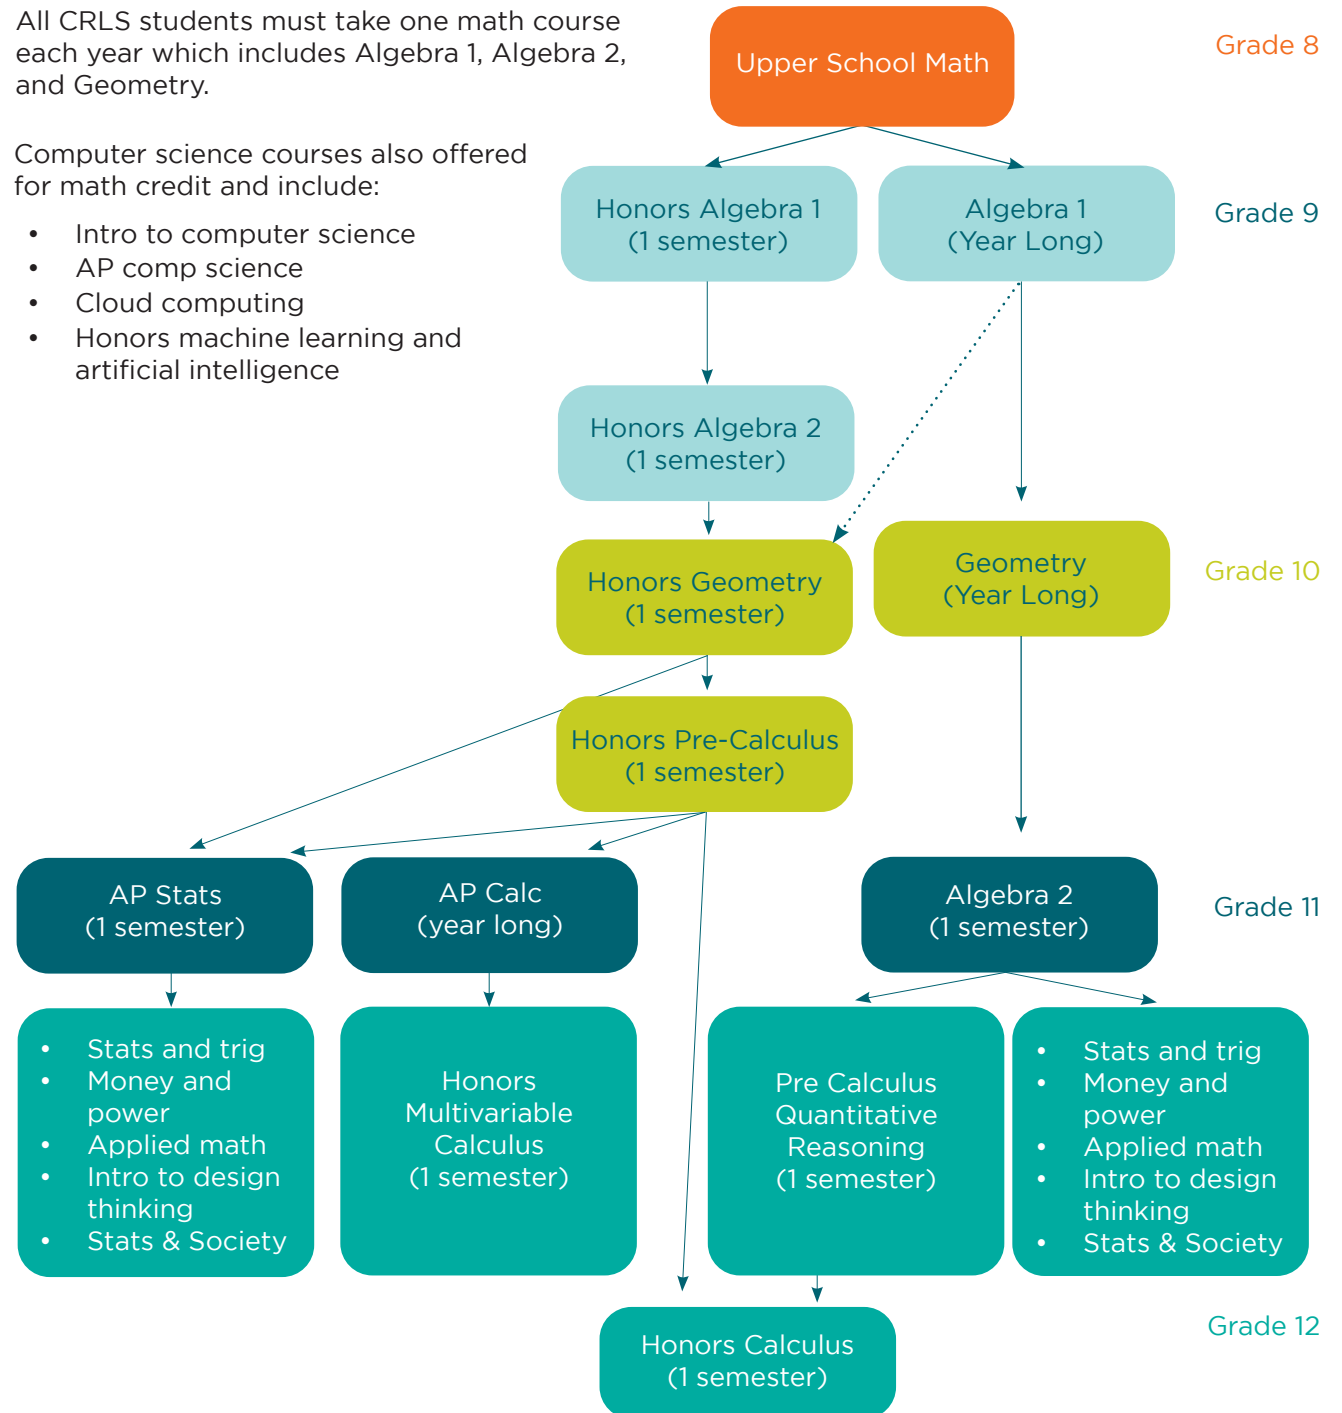

**Please note that this is the current protocol as we remain responsive to the needs resulting from the impact of COVID-19. This process is reviewed and subject to change yearly.*

Possible CRLS Math Pathways

All CRLS students must take one math course each year which includes Algebra 1, Algebra 2, and Geometry.

Computer science courses also offered for math credit and include:

- Intro to computer science
- AP comp science
- Cloud computing
- Honors machine learning and artificial intelligence
