- was not advanced from one grade level to the next for one or more school years; (Retained – stays with them for entire school career)
NEW – NOTE: *a student is not considered at risk of dropping out of school if the student did not advance from Pre-K or Kindergarten to the next grade level only as a result of the request of the student’s parent.*
- did not perform satisfactorily on an assessment instrument administered to the student under Subchapter B, Chapter 39, and who has not in the previous or current school year subsequently performed on that instrument or another appropriate instrument at a level equal to at least 110 percent of the level of satisfactory performance on that instrument;

- is homeless, as defined by 42 U.S.C. Section 11302, and its subsequent amendments; or
- resided in the preceding school year or resides in the current school year in a residential placement facility in the district, including a detention facility, substance abuse treatment facility in the district, emergency shelter, psychiatric hospital, halfway house, or foster group home.

Sonora ISD provides instructional support to at-risk students through three-tier reading and mathematics intervention, tutorials, and remediated instruction; teachers and paraprofessionals assist students in the classroom as additional support. These efforts are closely supervised through assessment and progress monitoring. A credit recovery program is available at Sonora High School for students at-risk of not graduating due to lack of course credits. Counseling services are available at each campus and student attendance is watched closely. Students are identified as “at-risk” by the campus principal, campus counselor, and campus PEIMS clerk based on state eligibility criteria. These students are then closely monitored by the campus counselor each six weeks.

Upon evaluation of the effectiveness of this program, the committee finds that Sonora ISD has closed the gap in Math, but all four of the other tested subjects have not shown improvement. Concluding, we may need to add additional support at the High School and Middle School to improve at-risk performance.

Dating Violence

Dating violence occurs when a person in a current or past dating relationship uses physical, sexual, verbal, or emotional abuse to harm, threaten, intimidate, or control the other person in the relationship. Dating violence also occurs when a person commits these acts against a person in a marriage or dating relationship with the individual who is or was once in a marriage or dating relationship with the person committing the offense.

For purposes of this policy, dating violence is considered prohibited harassment if the conduct is so severe, persistent, or pervasive that the conduct:

1. Affects a student's ability to participate in or benefit from an educational program or activity, or creates an intimidating, threatening, hostile, or offensive educational environment;
2. Has the purpose or effect of substantially or unreasonably interfering with the student's academic performance; or
3. Otherwise adversely affects the student's educational opportunities.

Examples of dating violence against a student may include physical or sexual assaults; name-calling; put-downs; or threats directed at the student, the student's family members, or members of the student's household.
