Leo Blair spoke about an initiative to create an endowment for the Harvard Public Schools. Would like to try to set a goal of $5 million to be raised over the next 5 years. Other towns have been successful with this idea and it would be worth looking into the options for Harvard. He also is interested in looking at options for use of the Hapgood Library that would include the students at the Bromfield. He proposed an after school study center that could be monitored by adults or older Bromfield students who may be part of the Peer tutoring system. Other suggestions made and the committee opted to place this on their next agenda for further discussion.

Stu Sklar reported that the Suburban Coalition is crafting a position statement encouraging defeat of Question One (elimination of the state income tax) on the upcoming ballot. Members unanimously supported the idea that the School Committee might formally adopt a position that could be expressed through a letter sent in collaboration with other interested town boards and groups.
