Superintendent Report  
Dr. Dwight explained the attendance policy changes that are being mandated by the state. The new law requires each school committee to establish a pupil absence notification program in each of its schools. Under the provision, the program must ensure that the school notifies a parent or guardian if the student was absent and the parent has not notified the school of the absence within 3 days of the absence. The district must make reasonable efforts to meet with the parent or guardian of a student who has 5 or more unexcused absences to develop an action plan for student attendance as prescribed in the statute. A trip form was discussed to develop a pre-approval form for all families to get preapproved for up to 5 days to travel to college visits etc. The Administrative team will work on the trip form and policy language and bring back for Committee review and approval.
