AHERA Compliance Notification September 2022

Dear Parents, Teachers and Employees of the Morris Plains Borough School District,

As part of the plan to keep the Morris Plains Borough School District aware of the information regarding updates in our asbestos management plan, which are mandated by the Asbestos Hazardous Emergency Response Act (AHERA) signed into law by President Reagan in December of 1987, this letter is being issued.

As required by AHERA law, an accredited management planner prepared an asbestos management plan for our school building. This plan was submitted and accepted by the New Jersey Department of Health. Initial inspections indicated that asbestos containing building materials (ACBM) are present in our buildings.

Inspection of all areas identified in the plan, whether ACBM or assumed ACBM are being inspected at least every six months.

As required by AHERA law since July of 1989, our latest three year re-inspection was conducted in **June 2020** by an accredited inspection firm. The school building was inspected and a letter of assurance was sent to the New Jersey Department of Health confirming our compliance with AHERA regulations.

Our custodians have had an asbestos awareness training course and have been instructed on the importance of periodically surveying the asbestos material during their normal day to day activities.

The asbestos management plan, previous three year re-inspection and six month surveillance reports completed are available for review Monday through Friday between the hours of 8:00am and 3:30pm in the Board of Education Office.

Sincerely,

Catherine M. Jenisch
Business Administrator/Board Secretary
