

To Complete for IEP Meeting

Some things to share with therapists, teachers and others that work with your child:

- What does _____ do well?
- What does _____ like to do?
- What does _____ not like to do?
- What does _____ need help to do?
- How do we (family) help _____?
- What else does the school need to know about _____?
- What do we want _____ to be able to do?
- What do we want the school to do? And not do?
- Does _____ need accommodations (like a special seat or place to sit in class) or assistive technology (other things that help him/her to do stuff like the other kids)?
- What have other therapists done that worked well?
